

# MEADOW CREEK RECREATION ENHANCEMENT AND WATERSHED IMPROVEMENT PROJECT

## Q & A

### HOW CAN I FIND OUT MORE INFORMATION ON THIS PROJECT?

Maps and other project related information can be found here.

<http://www.fs.usda.gov/project/?project=50666>

### WHAT IS THE PROJECT PURPOSE?

There are currently resource concerns to water quality, stream health, wetlands, and wildlife habitat from dispersed (unmanaged) camping, including lack of sanitation facilities and user created roads and trails near Meadow Creek and Meadow Creek Reservoir. The Forest Service is in the process of conceptualizing a plan that would improve watershed and aquatic conditions while also enhancing recreation opportunities; and are looking for the public to help craft this plan.

### WHAT IS THE PROJECT PROPOSAL?

There is no concrete proposal as of yet. We are holding this pre-scoping open house to hear what the community has to say about the area, and some of their ideas. We want to develop a project proposal in collaboration with you, the community, that strikes a balance between enhancing the recreation opportunities up there while also benefitting wildlife and watershed conditions.

### WHERE DO I COMMENT?

Pre-scoping comments can be made in the following locations. We encourage the use of the website comment function, but will accept them via email as well:

- Website: <http://www.fs.usda.gov/project/?project=50666>
  - Click "Comment on this project" on right side of page
- Email me: [eric.schroder@usda.gov](mailto:eric.schroder@usda.gov)
- Call me: 303.541.2538

### IS THIS THE ONLY TIME I CAN COMMENT?

NO! This is a pre-scoping comment period. The formal comment period is anticipated to begin in August, 2019.

### WHO DO I CONTACT FOR MORE INFORMATION?

Contact Kelly Larkin by email: [eric.schroder@usda.gov](mailto:eric.schroder@usda.gov), by phone: 303.541.2538
